

NFI National Filters, Inc.®

Experts in Filter Manufacturing

HYDRAULIC FILTERS

WWW.NATIONALFILTERS.COM

WHO WE ARE

National Filters is an industrial filtration manufacturer specializing in hydraulic and lubrication oil filter cartridges. We have been supplying the North American market with our quality products since 1986. NFI products are proudly manufactured in the USA at our production facility located in Harbor Beach, Michigan.

MANUFACTURING STANDARDS

At NFI we pride ourselves on the quality of each and every filter that we make. We follow strict guidelines as set out in our Quality Management System to ensure all filters we ship to our customers meet only the highest standards.

ENGINEERING DESIGN

At National Filters we are experts in filtration. Our engineering team has over 45 years of experience in the design and implementation of new filtration products. We design new filtration products based on our customer needs as well as reverse engineer quality filter replacements for all of the popular hydraulic filter brands.

Our team follows market trends to ensure we use leading edge technology and improved filtration media that will meet your ISO cleanliness requirements. ISO 9001:2015 certified.

QUALITY REPLACEMENT ELEMENTS

NFI uses only quality raw materials that are equivalent to the original manufacturers specifications. Our replacement elements have been designed to meet and/or exceed the OEM parts.

All raw material goods are inspected by our Quality Department to ensure only the best components are used to assemble our parts.

COMPETITIVE PRICING

Before we go to market with our products, NFI researches market trends to ensure we are one of the most competitively priced brands available. If you find a lower priced item from any other filtration company please contact us and we will immediately review our pricing to get you the best possible price.

INDUSTRY BEST LEAD TIMES

NFI has a 7-10 business day lead time to manufacture from stocked raw materials, after receipt of order. In many cases we can ship in 24-48 hours for rush orders with an expedite fee.

National Filters also stocks a large number of high volume movers ready to ship the same day. We can work with you to ensure that your parts are in stock and ready to ship when you need them.

HYDRAULIC & LUBE OIL FILTERS

National Filters manufactures hydraulic & lubrication oil filters for the following;

- ✦ Low Pressure Filters (from 145 up to 435 psi)
- ✦ Medium Pressure Filters (from 1000 to 1500 psi)
- ✦ High Pressure Filters (from 3045 psi to 4800 psi)
- ✦ Return Line Filters (from 40 psi to 435 psi)
- ✦ Suction Line Filters (from 40 psi to 100 psi)

MEDIA GRADES

National Filter can use any of the following media grades in conjunction with any style of filter element;

ABSOLUTE RATED MICROGLASS

1, 3, 6, 10, 25, 37

NOMINAL RATED CELLULOSE

3, 5, 10, 20, 40

STAINLESS STEEL WIRE

10, 25, 40, 50, 60, 74, 80,
100, 125, 150, 200, 250,
300, 420, 500, 600, 700,
1000, 2000

SINTERED FIBER

3, 5, 10, 20
Available upon request

NFI can manufacture water removal filters in any size element. We co-pleat the water removal media along with a layer of microglass and/or cellulose depending on the customers needs.
