MANUFACTURING CAPABILITIES

ENGINEERED FILTRATION SOLUTIONS FOR REAL-WORLD APPLICATIONS.

NFI National Filters, Inc.®

Experts in Filter Manufacturing

ENGINEERING DESIGN

Our engineering team has over 40 years of experience in the design and implementation of new filtration products. We use leading edge technology and improved filtration media to meet your exact requirements.

QUALITY REPLACMENT ELEMENTS

We use only high quality raw materials that are equivalent to the original manufacturer specifications. Our replacement elements are designed to meet and/or exceed OEM parts.

2 - 3 WEEK STANDARD LEAD TIMES

NFI has a standard 2-3 week lead time to manufacture from stocked raw materials. We also stock a large number of high volume movers to ensure your parts are in stock and ready to ship.

COMPETITIVE PRICING

NFI researches the market to ensure we are one of the most competitively priced brands available. If you find a lower priced item from any other filtration company, contact us and we will review our pricing to get you the best possible price.

HYDRAULIC & LUBE OIL FILTERS

National Filters manufactures hydraulic & lubrication oil filters for the following:

- Low pressure filters (from 145 psi up to 435 psi)
- Medium pressure filters (from 1000 psi to 1500 psi)
- High pressure filters (from 3045 psi to 4800 psi)
- Return line filters (from 40 psi to 435 psi)
- Suction line filters (from 40 psi to 100 psi)

MEDIA GRADES

We offer the following media grades:

Absolute Rated Microglass	3, 6, 10, 25, 37
ESD (Electrostatic Discharge)	3, 6, 10, 25, 37 (upon request)
Nominal Rated Cellulose	3, 6, 10, 20, 40
Stainless Steel Wire	10, 25, 40, 50, 60, 74, 100, 125, 150, 200, 250, 300, 420, 500, 600, 700, 1000, 2000
Sintered Fiber	3, 5, 10, 20 (upon request)

NFI can manufacture water removal filters in any size element.
